

## Evidence-Informed Policymaking

We support researchers and policymakers who believe public policy is better when informed by scientific evidence and knowledge by:

- sharing research on the challenges
- providing tools and materials to train scientists and policymakers
- building robust science-for-policy ecosystems
- nurturing an EU and global community

---

## Set of competences

### EVIDENCE-INFORMED POLICIES

# The European Communities Method

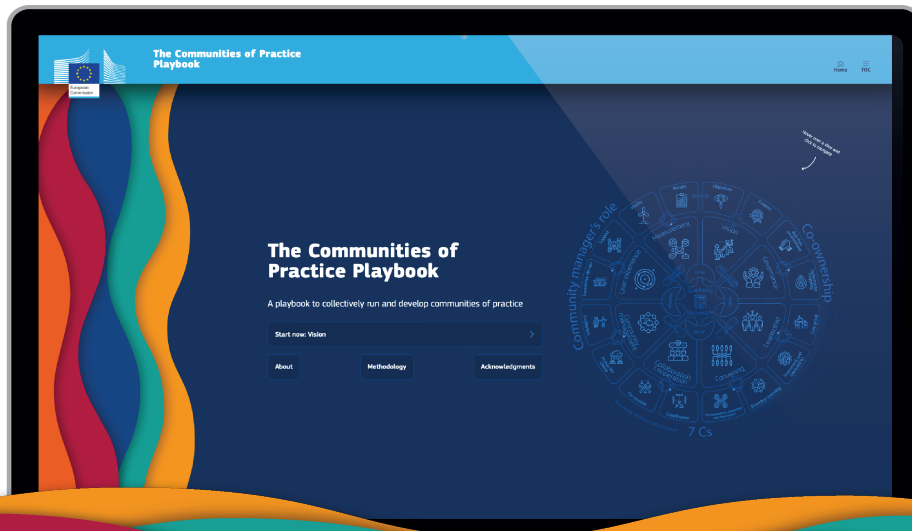

Acting as **collaborative** hubs, **communities** drive innovative problem-solving,

ensuring **integrated** policies that are co-created, co-implemented, and co-evaluated,

leading to more inclusive, creative, and **sustainable** policy outcomes.
